extra session of Congress, there was a fair attendance of senators, but an unusually small gathering of spectators in the galleries. Not the least ripple of excitement had outlasted the financial conflict, and everything was quiet and serene, as suited the occasion. The reading of the journal was interrupted and its further continuance dispensed with, while Mr. Cockrell reported back from the Committee on Appropriations the House resolution for final adjournment at \$1. P. M. to-day.

Mr. Coke protested against adjournment, The poorest way, he said, for the Democratic party to serve the country was for Congress to adjourn, go home, and leave the public business. Mr. Dolph also opposed adjournment, and so did Mr. Harris, who thought that the Democratic majority should stay and transact public business as rapidly as possible, and thus redeem its promises to the country.

Mr. Cockrell said that he heartily concurred in what had been said; but it was not worth while taiking about it when they all knew that a qrorum could not be kept in either House.

Brief'arguments against the resolution were made by Messrs. Call and Berry.

Mr. Gray intimated that an attempt to continue the session would be an idle plece of work. The purpose for which Congress had been called in extra session was now behind them and after the strain of the last three months senators wanted an opportunity to attend to their private business.

RETENTION OF EMPLOYMENT.

Mr. Richardson introduced a joint resolution providing for the employment of Senate and House clerks and employees during the interval between the sessions. He sent to the Clerk's desk and had read a communication from the Postmaster of the House stating that it was necessary to continue the post-office employees in order to handle the routine business of the office, and Mr. Richardson claimed that the same arguments applied to the other employees of the House and Senate.

Mr. Sayers (chairman of the Appropriations Committee) objected to the resolution on the score of economy. He stated that when the same proposition was made in the Fifty-first Congress it was objected to by the Democratic members, and he thought it rather inconsistent in the Democrats to favor such a resolution at this time.

Messrs. Kilgore and Holman also objected to the resolution, which was defended by Mr. Blair.

Messrs. Kilgore and Holman also objected to the resolution, which was defended by Mr. Blair.

Mr. Cannon suggested an amendment providing that the resolution be presented as a House resolution instead of a joint resolution, and that the clerks and employees should be paid from the contingent fund, but the amendment was lost.

Mr. Hutcheson (Democrat), of Texas, began fillbustering on the resolution, and at 1:20 the House settled down to rolling Milburn, of King-

This was ordered, when Mr. Richardson moved to reconsider the vote by which the House agreed to retain the employees during the vacation, and moved to lay that motion on the table, which the House promptly agreed to.

and the committees were called for reports.

The clerk of the Senats brought back the joint resolution introduced by Mr. Richardson providing for the retention of clerks and per diem session employees of the House in the interval between the first and second sessions. The bill as returned from the Senate was freighted with an amendment which brought dismay to the economical leaders of the majority of the House. It was found that the Senate had tacked on the old bone of contention in the urgent deficiency bill—the item appropriating \$2,08 for back pay of Senate clerks. The members of the House were considerably nonplussed. Finally they began to back down, and the chairman of the Appropriation Committee (Mr. Sayers) moved to concur in the Senate amendment. He announced that the senators were determined to get that item in; that the chairman of the Senate Appropriations Committee had authorized him to say to the House that the Senate would never agree to another urgent deficiency bill unless that item was passed, and he thought the House had better recede from its position.

would never agree to another urgent deficiency bill unless that item was passed, and he thought the House had better recede from its position.

HUTCHESON HARD TO DOWN.

This the House was prepared to do as gracefully and expeditiously as possible, when the Senate joint resolution was presented asking that the hour of adjournment be postponed until 4:39 o'clock. This was received with cheers and applause, and the members began to breathe more freely, feeling that they could pass the arsended resolution for the employment of cierks during adjournment at their leisure. But they were reckoning without Mr. Hutcheson, for when, pending action on the adjournment resolution, Mr. Catchings moved to suspend the rules and that the Senate amendment to the clerk and per diem employees resolution be adopted, the Texan was on hand with a request for tellers. The Speaker appointed Messrs. Richardson and Hutcheson as tellers and the members began to crowd between clerks during adjournment at their leisure. Industries could not be expected to make any material gain as yet in consequence of the new financial conditions, but the demand for textile products has to some extent improved.
